Total Epoxy and
Polyurethane systems
for capacitor manufacturers

Veeyor Polymers is your trusted source for cutting-edge epoxy and polyurethane formulations tailored for capacitor manufacturing. Our formulations empower the electronics industry, offering unmatched quality and performance. Elevate your capacitors manufacturing with Veeyor Polymers.

Our range of systems - Capacitors

Product	Appearance	Mixed Viscosity cps@30°C	Mixed Density g/cc	Mixed Ratio	Hardness	TC W/mK	Curing Characteristics	Flammability Rating
VEEPU FR 262	Off white	2000-3000	1.35-1.4	100:25:00	60-70 Shore D	0.6	RT Curing	UL94 V0
VEEPU 131	Off white	1500-2000	1.25-1.3	100:28:00	>65 Shore D	0.6	RT Curing	NA
VEEPU 333	Natural	800-1500	1.3-1.35	100:20:00	70-90 Shore A	0.6	RT Curing	NA
VEEPU 370 SS	Natural	5000-6000	1.6-1.65	100:12:00	70-90 Shore A	0.7	RT Curing	NA
VEECAL	Natural	3500-5500	1.05-1.15	NA	NA	NA	NA	NA
VEEFILL FR 4432	Blue viscous paste	1500-2500	1.3-1.4	100:25:00	>90 Shore A	0.6	RT Curing/HT Curing @ 70°C for 1 hr	UL94 V0
VEEFILL FR 4404	Red	400-500	1.4-1.45	100:34:00	>80 Shore D	>0.5	HT curing @ 80/70°C for 3 hrs / 110/70°C for 2 hrs	UL94 V0
VEEFILL FR 4405	Black	3000-4000	1.6-1.65	100:16:00	>80 Shore D	0.5	HT curing @ 100°C for 2-4 hrs	UL94 V0
VEEFILL FR 8585	Black	1300-1500	1.4-1.5	100:37:00	>80 Shore D	0.3	HT curing @ 85°C for 2 hrs	UL94 V0

*Products are REACH and RoHS compliant

** Setting time can be varied as per customer requirement

*VEEPU: Polyurethane, VEEFILL: Epoxy, VEECAL: Jelly Resin

About us

Veeyor Polymer is a leader in specialized Polyurethane, Epoxy Resin, and Silicone Sealing formulations. Our commitment to innovation and unwavering product quality drives us to create custom formulations precisely tailored to your unique requirements.

With decades of expertise and a dedicated team of researchers and scientists, we conduct rigorous research to enhance formulation attributes like appearance, chemical properties, viscosity, and other critical characteristics, ensuring the ideal chemistry for your applications.
