

Sealing and Potting compounds specially designed for LED Lights and Solar panel manufacturers

Veeyor Polymers a trusted provider for the lighting and solar industries. Our specialized silicone formulations are engineered to endure the demands of these sectors, delivering high-quality solutions. With state-of-the-art manufacturing and top-tier R&D capabilities, we collaborate closely with clients.

Consistent Quality

Timely Delivery

Competitive Pricing

Excellent Technical Support

Our range of systems - Lighting & Solar

Product	Appearance	Mixed Viscocity cps@30°C	Mixed Density g/cc	Mixed Ratio	Hardness	TC W/mK	Curing Characteristics	Flammability Rating
VEESIL FR 6878	Grey	2000- 2500	1.6-1.65	100:100	50-60 Shore A	>1	RT Curing for 3 hrs/ HT curing @ 70°C for 1 hr	UL94 VO
VEESIL 1732	Transparent	2000- 3000	0.9-1.0	100:10:00	70-80 Shore OO	0.2-0.3	RT curing for 24 hrs	NA
VEEGREASE 5080-1TC/ 3TC/5TC	White paste	40000- 60000	1.9-2.20	NA	NA	1-2	NA	NA
VEESIL OU 7329	White	5000- 6000	1.5-1.55	100:10:00	40-55 Shore A	0.3	RT curing for 6 hrs	UL94 VO
VEESIL SC 7070	Black	50000- 80000	1.3-1.35	NA	35-45 Shore A	NA	RT curing for 3-4 hrs	NA
VEESIL SC 7030	White	50000- 80000	1.3-1.35	NA	35-45 Shore A	NA	RT curing for 3-4 hrs	NA

^{*}Products are REACH and RoHS compliant

About us

Veeyor Polymer is a leader in specialized Polyurethane, Epoxy Resin, and Silicone Sealing formulations. Our commitment to innovation and unwavering product quality drives us to create custom formulations precisely tailored to your unique requirements.

With decades of expertise and a dedicated team of researchers and scientists, we conduct rigorous research to enhance formulation attributes like appearance, chemical properties, viscosity, and other critical characteristics, ensuring the ideal chemistry for your applications.

^{**} Setting time can be varied as per customer requirement
